Education

Indian Institute of Technology | *M.Tech. in AI and Data Science*

Patna, India

2025 – 2027

The LNM Institute of Information Technology | *B.Tech. in Electronics and Communication Eng*

Jaipur, India

2020 – 2024

Technical Skills

Programming: Python, C, C++, SQL, R, Golang

Libraries & Frameworks: PyTorch, TensorFlow, Hugging Face, scikit-learn, Pandas, NumPy, Qiskit, AWS Braket

Tools & OS: Linux, Git, Jupyter Notebook, Google Colab, Windows | **Web:** HTML, CSS, JavaScript, GCP Firebase

Experience

AI_NLP_ML Lab, IIT Patna | *Junior Research Associate*

Patna, India

Jan. 2026 – Present

- Spearheading research on domain-adapted Large Language Models (LLMs) specifically optimized for Low-Resource Indic languages.
- Architecting Knowledge-Augmented Generation (KAG) frameworks and investigating quantum-inspired machine learning methodologies for high-impact scientific publications.

Poornima University | *Teaching Assistant – Department of Computer Science*

Jaipur, India

Sep. 2024 – Apr. 2025

- Instructed graduate courses in R Programming, Deep Learning, and Cloud Computing implementations.
- Designed curriculum metrics and managed scalable, hands-on cloud laboratories hosted on AWS infrastructure.

Paras Anti-Drone Technologies | *Embedded Software Engineer Intern*

Navi Mumbai, India

Feb. 2024 – Aug. 2024

- Developed embedded hardware firmware and structured core ML pipelines for real-time aerial object tracking frameworks.
- Optimized deep learning computer vision architectures deployed across active defense drone surveillance units.

NYU Abu Dhabi Hackathon for Social Good | *3rd Prize Winner – Quantum Computing*

Abu Dhabi, UAE

Apr. 2022

- Co-authored an optimized cryptographic quantum protocol using qBraid and AWS Braket environments for medical imaging tasks.
- Represented the national delegation, engineering scalable technical stacks alongside researchers across 30+ countries.

Projects

Automated Twitter Content Pipeline | *Python, Google Docs API, X API, GitHub Actions*

Sep. 2025

- Built an automated serverless deployment script syncing secure cloud text engines directly with distributed micro-blog API pipelines.

Bollywood Music Recommender Engine | *Python, Scikit-learn, Pandas, YouTube API*

Jun. 2025 – Aug. 2025

- Trained an ML workflow applying natural language vector processing parameters to isolate semantic user queries to customized track listings.

IITP Campus Engagement Bot Gateway | *MERN Stack, Firebase Auth, TypeScript*

Aug. 2025

- Programmed scalable cross-platform communications software featuring secure data token authentication models for collegiate networks.

Native Custom Terminal Text Editor | *C, GCC Toolchain*

Jul. 2024

- Engineered a low-level terminal text manipulation engine implementing manual buffer sizing, file standard I/O, and token syntax formats.

Research & Achievements

Indian Patent Published: System for Estimation of DEE Utilizing ML in Indian Obese Populations

Sep. 2025

Research Paper (In Progress): Quantum Algorithms for Multi-Asset Financial Portfolio Optimization

2025 – Present

Top 1% Finalist: QCHack – Stanford x Yale Global Quantum Computing Hackathon

2022

Invited Technical Speaker: Shark Tank LNM – Presented on Core Methodologies in AI & Quantum Engineering

2023

Certifications

QBronze Quantum Computing Industry Certification – Global QWorld Network

Advanced Quantum Computing Foundations Certification – WISER x Womanium Research Track

Certified AWS Academy Cloud Educator – Amazon Web Services Technical Academy
